

Volunteering at BRHS

Meet new people, help others

The Volunteers Program is integral to our provision of quality health care.

Our volunteers make an exceptional contribution to our clients and the wider community in providing their time and skills.

We want our volunteers to feel informed, to be part of our organisation and be proud of their contributions. We hope that all our volunteers feel like they belong to the team, as they are a valued support in sustaining many new and exciting activities, enriching the lives of people within the East Gippsland region.

Volunteers contribute their time in the following program areas:

- Allied Health
- Residential Aged Care
- Activity Groups (day centres in Bairnsdale, Lindenow and Paynesville)
- Palliative Care
- Hospital Ambassadors
- Transport Drivers
- Community Visiting

We are also very fortunate to have many dedicated volunteers in the following auxiliaries who provide their time and donate proceeds from their fundraising activities towards medical equipment.

Bower Birds - a dedicated team of volunteers whose fundraising efforts assist in the purchase of hospital equipment for patient care and comfort.

Flower Auxiliary - friendly and caring volunteers attend the hospital daily to arrange and care for patients' flower arrangements.

Kiosk Auxiliary - volunteers are rostered to attend the hospital kiosk.

For volunteer enquiries please contact:
